1 About the Faculties

The B.A. & Sc. is an interdisciplinary degree intended for students who want to pursue simultaneously a program offered by Arts and one offered by Science. The B.A. & Sc. is intended for students with well-defined interdisciplinary interests, and is not meant as a 'compromise' between a B.A. and a B.Sc. degree. If you are more interested in Arts, but would like to study some Science, you can do so within the B.A. degree. Similarly, if you are more interested in Science, but would like to study some Arts, you can do so within the B.Sc. degree.

To learn more about the Faculty of Arts, see [Faculty of Arts > The Faculty > : About the Faculty of Arts](#). To learn more about the Faculty of Science, see [Faculty of Science > The Faculty > : About the Faculty of Science](#).

2 Programs and Teaching in Arts and in Science

Programs and teaching in Arts are described in [Faculty of Arts > The Faculty > : Programs and Teaching in Arts](#). Those in Science are described in [Faculty of Science > The Faculty > : Programs and Teaching in Science](#). The two faculties jointly offer the B.A. & Sc., so students pursuing that degree are at home in both Arts and Science.

3 About the Bachelor of Arts and Science (Undergraduate)

In September 2005, the Faculties of Arts and of Science introduced the Bachelor of Arts and Science degree. The Bachelor of Arts and Science (B.A. & Sc.) is a special and unique degree that is jointly offered by McGill's two largest faculties: the Faculty of Arts and the Faculty of Science.

The programs in the B.A. & Sc. are rooted in both Arts and Science and carry roughly equal course weight in these faculties. The B.A. & Sc. is an interdisciplinary degree intended for students who want to pursue simultaneously a program offered by the Faculty of Arts and one offered by the Faculty of Science or a program offered jointly by both faculties. In the case of some disciplines, such as Sustainability or Cognitive Science, this duality is inherent to the discipline. In other cases, the student may choose to join equal measures of an Arts discipline and Science discipline into a coherent interdisciplinary package. Examples might be Anthropology and Physical Geography, or Philosophy and Mathematics. The central objective of the B.A. & Sc. is to provide students with a broad education that includes study of disciplines in both faculties. This new degree gives students a unique opportunity to achieve a diverse knoams and

3.2 Administrative Officers

Note that the Director of Advising Services, Science, is responsible for students pursuing a B.A.Sc. degree.

The [B.A. & Sc. Program Administration Committee \(PAC\)](#), which oversees the curriculum and regulations for the degree, consists of the following members:

B.A. & Sc. Program Administration Committee (PAC)

Axel Hundemer	Associate Dean (Academic), Faculty of Science
Peter Barry	Chief Advisor, Science Office for Undergraduate Student Advising
Andrew Piper	Director B.A. & Sc. Program
Tania Raggio	Student Adviser/Administrator
Michael Fronda	Chair, Associate Dean (Academic Administration and Oversight), Faculty of Arts
Alanna Watt	Biology
Graham MacDonald	Geography

Student Representatives

Shirley Xu	Major Concentration in Biology, Major Concentration in Economics
Lisa Pennel	Honours in Cognitive Science, Minor Concentration in Psychology

3.3 Science Office for Undergraduate Student Advising (SOUSA)

The Science Office for Undergraduate Student Advising (SOUSA) provides ongoing advice and guidance on academic issues related to programs, degree requirements, registration, course change, withdrawal, deferred exams, supplemental exams, Academic Standing, inter- and intra-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

Every student in the B.A. & Sc. degree is assigned to Tania Raggio, B.A. & Sc. Student Adviser. You can contact her directly by email tania.raggio@mcgill.ca.

The B.A. & Sc. adviser provides assistance with degree planning and is a valuable referral source if you are not sure where to address your question. She also offers help managing academic situations during periods of personal, financial, or medical problems, by working with you to identify various possibilities and strategies for making informed decisions.

Special requests can be made, in writing, to the Associate Dean, Student Affairs, Science, who is responsible for students pursuing a B.A. & Sc.

The Committee on Student Standing (CSS) of the Faculty of Science will consider appeals of the Associate Dean, Student Affairs' decisions. For information about CSS, see the Associate Dean, Student Affairs' assistant.

For more information, refer to the SOUSA website: mcgill.ca/science/undergraduate.

4 Degree Admission Requirements

For information about admission requirements to the B.A. & Sc., refer to the *Undergraduate Admissions Guide*, found at mcgill.ca/undergraduate-admissions/apply.

For information about interfaculty or inter-degree transfers, refer to [University Regulations and Resources > Undergraduate > Registration > : Interfaculty Transfer](#), as well as to the relevant information posted on the Science Office for Undergraduate Student Advising (SOUSA) website at mcgill.ca/science/undergraduate/handbook#degree-transfers.

5 Degree Requirements

Each student pursuing a B.A. & Sc. must be aware of the regulations as stated in this section of this publication, on the McGill website, and on the [Science Office for Undergraduate Student Advising \(SOUSA\) website](#)

regulations and deadlines *rests with you*. It is the student's responsibility to seek guidance from the SOUSA Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program, or degree requirement.

To be eligible for a B.A. & Sc., students must fulfil all Faculty degree and program requirements as indicated in the following sections:

- [section 5.1: Minimum Credit Requirement](#)
- [section 5.2: Residency Requirement](#)
- [University Regulations and Resources > Undergraduate > Student Records > : Grading and Grade Point Averages \(GPA\)](#)
- [section 5.3: Time and Credit Limit for Completion of the Degree](#)
- [section 6: Course Requirements](#)

5.1 Minimum Credit Requirement

You must complete the minimum credit requirement for the degree as specified in your letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but Advanced Standing of up to 30 credits may be granted if you obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

If you are readmitted after interrupting your studies for a period of five consecutive years or more, you may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Associate Dean, Student Affairs, Science, in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

If you are readmitted after a period of absence, you are normally subject to the program and degree requirements in effect at the time of readmission.

5.2 Residency Requirement

To obtain a B.A. & Sc., you must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.A. & Sc. requirements must be taken and passed at McGill, exclusive of any courses completed as part of the math and science requirements of the B.A. & Sc. Freshman program. At least two-thirds of all departmental program requirements (Multi-track, Honours, Interfaculty) must normally be completed at McGill, not including courses completed in a prior McGill degree. Exceptionally, students in major concentrations or interfaculty or honours programs who pursue an approved Study Away or Exchange program may, with prior approval from both their department and the Associate Dean, Student Affairs, Faculty of Science, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

5.3 Time and Credit Limit for Completion of the Degree

If a student needs 96 or fewer credits to complete their degree requirements, that student is expected to complete their degree in no more than eight terms after their initial registration. If a student is in the Freshman program, they become subject to these regulations of a four-year degree program if they receive permission from the Associate Dean, Student Affairs, Science, to continue their studies.

If a student is registered in the B.A. & Sc., they are expected to complete the requirements of their program and degree within 120 credits. Students will receive credit for all courses (subject to degree regulations) taken

Option

- Arts Major Concentration (36 credits) + Science Major Concentration (36–38 credits) (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- The required integrative course BASC 201 (3 credits)

Regulations

- Programs offered by Computer Science, Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc. Exceptionally, you may take a Geography program in both Arts and Science.
- Students will include within the 36 credits of their major concentrations any university-level (200 or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

Definitions

- *Units*: academic departments or administrative equivalents
- *Programs*: lists of required and complementary courses (including university-level prerequisites for required courses) prepared and maintained by units
- *Major Concentration*: a program of 36–38 credits taken from a unit's course offerings

5.4.2 Joint Honours Program

If students want to study at the honours level in two disciplines, they can combine a joint honours program component from an Arts discipline with one from a Science discipline; see [section 10.4: Joint Honours Programs](#) for a list of available programs. Each joint honours component consists of a maximum of 36 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To choose the Joint Honours option, you students must meet the GPA/cGPA requirements set out in [University Regulations and Resources](#) > [Undergraduate](#) > [Graduation](#) > [Graduation Honours](#) > : [Honours and First-Class Honours for Faculties of Arts and Science \(including B.A. & Sc.\)](#).

Option

- Arts Joint Honours (36 credits) + Science Joint Honours (36 credits). (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B. A. & Sc.)
- The required integrative course BASC 201 (3 credits)
- 13–15 credits of electives

Regulations

- Programs offered by Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc.
- Students will include within the 36 credits of their major concentrations any university-level (200 or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

5.4.3 Interfaculty Program

An interfaculty program is an approved selection of courses constituting a concentration in an intellectually coherent and interfaculty field of studies. These courses must include approved selections from the Faculties of Arts and of Science and possibly other faculties. See [section 10.5: Interfaculty Programs](#) for a list of approved programs. Students in the B.A. & Sc. who complete an approved interfaculty program must also complete an approved minor concentration or a minor in the Faculties of Arts or of Science. You Students must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of the interfaculty program and the minor concentration or minor program.

Option

- Interfaculty Program (54 credits) + Minor or Minor Concentration (18 to 24 credits) (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- The integrativ

Sometimes, the same course is offered by two different departments. Such courses are called "double-prefix" courses. When such courses are offered simultaneously, you should take the course offered by the department in which you are obtaining your degree. For example, in the case of double-prefix

6.4 Courses in English as a Second Language (ESL)

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. As a student in the B.A. & Sc., you may take a maximum of 12 credits—including academic writing courses for non-anglophones—from the list of ESL courses published at mcgill.ca/science/undergraduate/handbook#baso-continuing.

6.5 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

You Students may take only one First-Year Seminar during the first year at McGill. If students register for more than one, they will be obliged to withdraw from all but one of them.

A list of First-Year Seminars is available at [Faculty of Arts > Undergraduate > Faculty of Arts Degree Requirements > Course Requirements > : First-Year Seminar Courses](#) and [Faculty of Science > Undergraduate > Faculty Degree Requirements > Course Requirements > : First-Year Seminars: Registration](#).

7 Advising

If you need 96 or fewer credits to complete your degree requirements, you must consult an academic adviser in your proposed department of study to obtain advice and approval of your course selection (please see [section 5.4: Departmental Programs](#)). To facilitate program planning, you must present your transcript(s) and letter of admission. If you have not fulfilled the B.A. & Sc. Freshman program requirements, you should also seek advice from an adviser in the Science Office for Undergraduate Student Advising (SOUSA). For a detailed description of advising and registration procedures, refer to [University Regulations and Resources > Undergraduate > : Undergraduate Advising, : Registration](#), and to the [website for newly admitted undergraduate students](#), as well as the [SOUSA website](#), and finally your department's website.

If you need 97–120 credits to complete your degree requirements, you will normally be registered in a Freshman program until you complete your first year. You must consult an adviser in the Science Office for Undergraduate Student Advising ([9 350.828 381\(9 0 011 riu mtl\)Tj1 0 0 1uugee your first year](tel:9350828381)

Drama and Theatre - Courses of Interest - Other Departments

Permission to count extra-departmental credits must be obtained in advance of taking any course from outside the Department of English. Students are normally permitted to count 3 credits from other departments towards their Drama and Theatre Minor. Permission is obtained with the signature of a Department of English program adviser on the student's program audit sheet.

This list comprises courses in other departments that might be accepted by an adviser for credit toward the student's Drama and Theatre program. This list applies only to these courses as they are offered in the current academic year.

There might be other courses in the Faculty of Arts for which a student could receive Drama and Theatre program credit. A student who has identified a course not noted below should show their program adviser the course syllabus in advance and, if he or she agrees, get the adviser's initialled approval of the course on their program audit sheet. The Department requires a complete signed audit sheet in the student's file in Arts 155 in order to process the file for graduation.

Included in the list are courses taught in languages other than English and courses that have prerequisites.

* Note: The courses in the list below with an asterisk ("*") have an historical dimension and may count toward this program requirement. Other courses could count toward the "option's offerings" component of the program.

11.13.4 Bachelor of Arts (B.A.) - Major Concentration English - Cultural Studies (36 credits)

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

11.24.17 Bachelor of Arts (B.A.) - Joint Honours Component Russian (36 credits)

Students wishing to study at the Honours level in two disciplines can combine Joint Honours program components in any two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Prior to registering for each Joint Honours component, students must consult with advisers in the respective departments for approval of their course selection.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. Departments may require a higher program GPA. Joint Honours students must meet the requirements of both components of their program.

The specific course requirements for the 36-credit Joint Honours Component Russian program are determined on an individual basis in consultation with the student's program adviser(s).

The Honours thesis course, RUSS 490, is usually completed in the student's final year and is on a topic in Russian literature or culture agreed upon in consultation with the student's thesis advisor.* It is to be written independently from the thesis that is required by the second program in which the student is pursuing their Joint Honours degree

*Note: Students must submit their Russian thesis project proposals to the Russian Studies departmental adviser by March 15th or November 15th of the preceding term for independent research courses.

11.28 Physics

The Department of Physics, the discipline, and specific courses are described in [Faculty of Science > Undergraduate > Browse Academic Units & Programs > : Physics \(PHYS\)](#).

11.28.1 Bachelor of Science (B.Sc.) - Minor Physics (18 credits)

The 18-credit Minor permits no overlap with any other programs. It contains no Mathematics courses, although many of the courses in it have Math pre- or corequisites. It will, therefore, be particularly appropriate to students in Mathematics, but it is also available to any Science student with the appropriate mathematical background.

Students in certain programs (e.g., the Major Chemistry) will find that there are courses in the Minor that are already part of their program, or that they may not take for credit because of a substantial overlap of material with a course or courses in their program. After consultation with an adviser, such students may complete the Minor by substituting any other physics course(s) from the Major or Honours Physics programs.

Students who are interested in practising psychology in Quebec are advised to also complete the Minor Concentration Behavioral Science.

Recommended Background for Quebec CEGEP Students

Students planning to apply to a Bachelor of Arts degree with a Major Concentration Psychology or a Bachelor of Arts and Science degree with a Major Concentration Psychology are advised to take courses in Introductory Psychology and Human Biology at the collegial level.

11.30.3 Bachelor of Arts (B.A.) - Joint Honours Component Psychology (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students should note that awarding of the Joint Honours degree will depend on both cumulative grade point average and a minimum grade of B on PSYC 380D1/PSYC 380D2, PSYC 482. "First Class Honours" is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses (i.e.: PSYC 380D1/D2, PSYC 482). "Honours" is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses.

In addition to the requirements of the Joint Honours Component Psychology, students must also complete all requirements of their other Joint Honours component.

Admission to the Joint Honours component is selective. Students with a cumulative grade point average of 3.00 or higher are eligible to apply; however, normally only students with a U1 GPA above 3.50 are admitted. Students must complete a minimum of 27 graded credits in two terms in their U1 year to be eligible to apply. Once in the Joint Honours component, students must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Joint Honours component are encouraged to complete a minimum of 27 graded credits per academic year. This is also the minimum number of credits required to be eligible for fellowships and awards.

Students may apply to the Joint Honours component upon completion of the U1 year. Eligible students must have completed the following Psychology courses: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students are advised to complete PSYC 305 in their U1 year.

The application is available on the Psychology Dept website at:

<http://www.mcgill.ca/psychology/undergraduate/current-students/research-opportunities/research-courses>. The deadline is specified on the application form. Candidates will be informed of the Department's decision via email before classes begin in September.

Program Prerequisites

Students planning on entering the Joint Honours Component Psychology program are required to complete Introductory Psychology; a course in Human Biology is strongly recommended.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP are required to register for PSYC 100 during their U1 year.

Bachelor of Arts students who have not completed one of Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP should complete one of BIOL 115, BIOL 111 or BIOL 112 during their U1 year. Students who enter as Freshmen may take these courses in U0.

Bachelor of Arts students will replace this requirement with 3 credits at the 300 level in one of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING) or Sociology (SOCL).

Bachelor of Arts and Science students will replace this requirement with 3 credits in Psychology at the 300-level or above.

11.34.4 Bachelor of Arts and Science (B.A. & Sc.) - Honours in Sustainability, Science and Society (60 credits)

The grand challenge of the 21st century is sustainable well-being; that is, to improve human well-being while maintaining the Earth's life-support systems. This B.A. & Sc. program provides the interdisciplinary and integrative knowledge and skills required to effectively understand and address this challenge in its multiple dimensions—scientific-technological, socio-economic, political-institutional, ethical, and human behavioural - and to chart a transition to sustainability. It is built upon three pillars: 1) Science and Technology, to provide an in-depth understanding of the underpinnings of the problems of concern along these dimensions; 2) Economics, Policy, and Governance, to understand how we can make the sustainability transition; and 3) Ethics, Equity, and Justice, to discuss why we need change, and the issues of equity and justice associated with taking action. This program is a partnership between Geography and the Bieler School of Environment and will be administered through Geography.

The Honours program allows students to pursue a research project with the supervision of a McGill University faculty member, leading to an honours thesis. Applicants must have a minimum program GPA (GPA of all required and complementary courses taken at McGill) of 3.3 to enter the Honours program. Students must earn a B grade (3.0) or higher for the Honours Research course (ENVR 495, 6 credits). Students are required to achieve a minimum overall CGPA of 3.0 at graduation, and a minimum Program GPA of 3.3 to obtain Honours. Honours students need to identify a supervisor, an honours project, and register in ENVR 495. Honours students are encouraged to participate in 500-level seminars with graduate students.
